

RADIO NAVIGATION AIDS - EN-ROUTE

The nominal coverage of each radio aid is consistent with the indications of ICAO Annex 10 (VOL 1), covering the levels and distance required operationally. Any difference with respect to the nominal value is indicated in the remarks section.

The coordinates of all radio navigation aids including the component/equipment, without zeroing, and can be checked at <https://insignia.enaire.es/> on the «Radioayudas» and «Equipos» tables.
