MÁLAGA/Costa del Sol AD (LEMG).- Works to replace the declared take-off distances signs from intersections.

Until 26 June 2025 (estimated), works to replace the declared distance signs from intersections at MÁLAGA/Costa del Sol Airport will be underway.

Due to the entry into force of the EASA GM1 ADR.OPS.A.005 regulation, the declared distance values from the intersections have been recalculated and the signs with these distances will be replaced at the affected intersections.

The works will be carried out in five different phases, associated with the works on the signs for each available take-off operation from the intersection. The phases do not necessarily have to be executed in the order below, and may be activated simultaneously in some of the works. The start and end dates of each phase, the applicable restrictions, and/or any operational incidents that may arise, will be announced via the corresponding NOTAM.

All work zones will be duly marked and lit. Caution is recommended due to the presence of personnel and machinery. The works will be performed at night-time between 0000 and 0600 LT.

Phase 1: Signs RWY 31 INT TWY E-1

After the phase is completed, the declared distances will be as follows for all aircraft types:
