TRANSITION TO NEW MAGNETIC VARIATION FOR THE YEAR 2025 IN THE AIP-ESPAÑA

CANCEL AIC INT 05/20.

AIS-ESPAÑA is planning to update the magnetic variation contained in the AIP-ESPAÑA with that of the year 2025. This modification will be carried out gradually as follows:

1) Initially, the magnetic variation of aerodromes, heliports and air navigation aids listings contained in AIP section GEN 2.8 will be updated.

2) Based on the new variation, all aerodromes, heliports and charts included in the AIP-ESPAÑA will be gradually updated as they are affected by changes in successive amendments thereof.

Likewise, AIP section ENR 4.1 will be updated as well accordingly.

On the basis of the above, it is worth to note that for some time aerodromes with variation for the year 2020 will coexist with aerodromes with variation for the year 2025.
